

Project Overview

As of May 3, 2013

Gender Road at Refugee Road Intersection Improvements

Description and Benefits: Project will include additional through and turn lanes at the Gender Road and Refugee Road intersection. In addition, the following intersections will be improved: Gender at Upperridge, Countryview/Stirling at Refugee, and Long at Refugee. The purpose of these improvements is to reduce congestion, improve safety and upgrade pedestrian and bikeway facilities.

Costs:

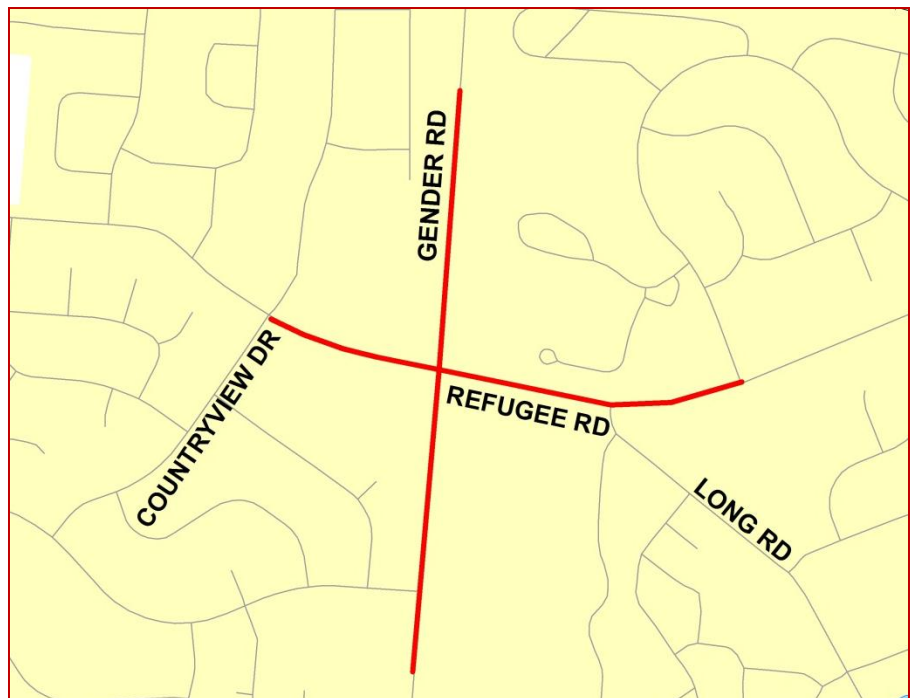

Design, right-of-way acquisition and utility relocation	\$750,000
Construction and inspections	\$4,400,000

Status: Design in progress.

Schedule: Design scheduled for completion in winter 2014. Right-of-way acquisition to occur in fall of 2014. Construction expected to start in early 2016.
